Czas wysyłki	24 godziny
Numer katalogowy	402613002
Kod producenta	5060393702436
Kod EAN	5060393702436
Producent	Warlord Games

Opis produktu

M21 Mortar Carrier Half-track , 402613002

Bringing support fire to your mobile forces with the M21 Mortar carrier, ideal for winking out those dug in infantry!

By the middle of the war the US Army could field legions of tanks and support vehicles, backed by the industrial might of the USA. Using their reliable M3 Half-track as a basis, they created the M21, a mobile mortar carrier that could keep up with advancing tanks and armoured infantry. This useful vehicle carried the simple but effective 81mm mortar, with 97 ready-use rounds, and crewed by a team of six men.

In general the mortar would be carried to a firing position and deployed, however it was not uncommon to sight and fire the mortar straight from the half-track, keeping the team on the move if needs be and sheltering from shrapnel or small arms fire. 110 M21s were built by the White company and saw service in Western Europe, predominantly by US forces, but some were also deployed by the Free French. The best tactic in Bolt Action is to shoot and scoot, before return fire catches you

This fantastic support Half-track comes complete 1 pintle-mounted HMG, 1 hull-mounted rear facing medium mortar and a full decal sheet.
